According to the Standards of Practice, the inspector shall **describe** a garage vehicle door as manually-operated or installed with a garage door opener.

10 Steps to Inspect a Garage Door Opener is inside the free, online ["How to Inspect the Attic, Insulation, Ventilation, and Interior Course."](#)

The inspector shall **report** as in need of correction:

- improper spacing between intermediate balusters, spindles and rails for steps, stairways, guards and railings;
- photo-electric safety sensors that did not operate properly; and
- any window that was obviously fogged or displayed other evidence of broken seals.
